

WHAT DOES CDSS DO WHEN AN INCIDENT IS REPORTED?

The CDSS Information Security Officer will review the reported incident and may contact you to investigate further. If an incident involves the release of a client's or employee's personal information, then the client or employee would be notified of the incident. Personal information is the name, date of birth, Social Security Number, driver's license or identification card number, financial account number, or health information of the client or employee.
