

SITUATION:

We have a 2-parent SSP/MOE case in which one parent is timed out, the other still has 10 months left prior to timing out.

QUESTION:

How do we code T12 Type of Family for Work Participation?

ANSWER:

A 2-parent family in which one parent is excluded because of sanction or timing out does not lose its 2-parent SSP/MOE status. It also does not lose its 2-parent WTW work requirement of 35 average hours per week. Therefore, item T12 should remain code 2 (Two Parent Family) for the above mentioned family.

HOWEVER, if BOTH parents become excluded, then the family breaks down to a child only case with no WTW work requirement. The case remains in the state funded SSP/MOE universe.
