

DEPARTMENT OF BENEFIT PAYMENTS

July 15, 1974

ALL-COUNTY LETTER NO. 74-125

TO: ALL COUNTY WELFARE DEPARTMENTS

SUBJECT: FOOD STAMP QUALITY CONTROL

REFERENCE:

Attached are revised materials for use in your Food Stamp Quality Control program in the July-December 1974 review period. Included are the following:

Sampling Schedule

The Sampling Schedule shows which Food Stamp counties will be participating in the regular nonassistance case review process. The schedule shows their quotas of sample cases by type and month. Counties with smaller nonassistance Food Stamp caseloads do not participate in this case review process but are subject to random review by Department of Benefit Payments staff.

Calendar

A calendar of due dates for receipt by Program Information Bureau of sample log EC 175 and review schedules FNS-246.

Random Number Tables

A new set of random number tables, identical in format to the tables used for January-June 1974. Their use is explained in the California Food Stamp Sampling Procedure Instructions (attached).

Sampling Procedure Instructions

The major difference in the new Sampling Procedure Instructions is the definition of negative actions which has been changed to reflect federal regulations.

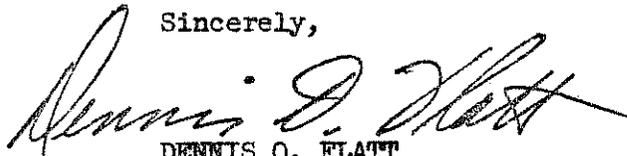

Revised Form Instructions

The attached excerpts from Revision 1 of the FNS-732-2 Quality Control Instructions are for updating the revised instructions to the Food Stamp Quality Control handbook which were sent to the counties on December 21, 1974. Superseded by ACJ 76-27

A package including copies of the Household Data Sheet (FNS-245) and the Review Schedule (FNS-246) will be sent to all participating counties by the FNS Regional Office.

Program questions should be directed to Food Stamp Management Bureau, (916) 445-6907. Questions concerning procedures and sampling systems should be directed to Program Information Bureau, (916) 322-2230 or (ATSS) 322-2230.

Sincerely,

DENNIS O. FLATT
Deputy Director
Welfare Program Operations
