ALL COUNTY INFORMATION NOTICE I- 80-87

TO: All County Welfare Directors

SUBJECT: AFDC CORRECTIVE ACTION PROGRESS REPORT

Attached for your information is a copy of the Progress Report for California's Quality Control Corrective Action Plan for the period October 1985 through September 1986. This Report was provided to the Department of Health and Human Services as required by Federal regulations.

The Federal sample Quality Control (QC) findings show an increase in the statewide unregressed dollar error rate from 3.0 percent for the six-month period ending September 30, 1986, to 3.3 percent for the period ending March 31, 1987.

An analysis of the data shows that two error elements, Wages and Salaries and Monthly Reporting, continue to constitute more than one-third of the total error rate. Our priorities must be to aggressively target these two error elements for reduction.

We were pleased to find that the State sample QC findings show that 27 counties have an error rate below the three percent Federal performance standard. Please refer to Chart 9 on page 12 of the Progress Report for a display of QC Counties' error rates.

Your commitment to error reduction is essential to the attainment of our statewide corrective action goals. I am confident that we will all make an additional effort to reverse the trends evident in the most recent period's findings.

If you have questions or comments about the Progress Report, please contact Ms. Nina Grayson, Chief, Corrective Action Bureau, or your staff may contact your County's Corrective Action Consultant at (916) 445-4458.

A handwritten signature in dark ink, appearing to read "Robert A. Horel".

ROBERT A. HOREL
Deputy Director
