TITLE XX BLOCK GRANT PREEXPENDITURE REPORT

October 1, 1990 through September 30, 1991

DRAFT

Prepared by

ADULT AND FAMILY SERVICES DIVISION

STATE OF CALIFORNIA
George Deukmejian, Governor
HEALTH AND WELFARE AGENCY
DEPARTMENT OF SOCIAL SERVICES

INTRODUCTION

This document is California's Title XX Block Grant Preexpenditure Report for the period October 1, 1990 through September 30, 1991. The report is prepared in conformance with Federal and State requirements and contains a description of the social services programs California will offer during the 1990/91 Federal Fiscal Year (FY) funded under Title XX of the Social Security Act.

Since October 1981, Federal monies for social services have been given to the states as a Block Grant for Social Services. In order to qualify for these funds, a state must prepare and announce an expenditure plan prior to the start of the Federal FY. This report presents that plan.

Copies of the report are being made available to all agencies and persons on the Department's mailing list for public hearings. Additional copies may be obtained through request of the Department. Public comments concerning this report are welcome, and must be received no later than September 1, 1990. They should be addressed to:

State Department of Social Services
Adult Services Bureau
744 P Street, MS 6-536
Sacramento, CA 95814

I. CALIFORNIA'S SOCIAL SERVICES SYSTEM

The public social services system in California is administered locally by each of the 58 Counties and is supervised by the State through the Department of Social Services. The State-County system addresses the five Federal services goals under Title XX through an array of 21 social services. Eight of these social services have been designated as "mandatory" and must be provided within each County. Thirteen of the social services are designated as "optional"; each County may elect to provide any, all or none. The decision concerning which of the optional services a County will provide is totally a local decision based on local needs, priorities and resources. The total level of social services available within the State is subject to yearly appropriations by the State Legislature, Congress and, to a lesser extent, individual County Boards of Supervisors.

The eight mandated and thirteen optional social services are:

MANDATED SERVICES

- Information and Referral
- Emergency Response
- Family Maintenance
- Family Reunification
- Permanent Placement
- Out-of-Home Care for Adults
- In-Home Supportive Services
- Protective Services for Adults

OPTIONAL SERVICES

- Special Care for Children in Their Own Homes
- Home Management and Other Functional Educational Services
- Employment/Education Training
- Services for Children with Special Problems
- Services to Alleviate or Prevent Family Problems
- Sustenance
- Housing Referral Services
- Legal Referral Services
- Diagnostic Treatment Services for Children
- Special Services for the Blind
- Special Services for Adults
- Services for Disabled Individuals
- Services for County Jail Inmates

II. INTENDED USE OF BLOCK GRANT

It is the State's intent to use the Title XX Social Services Block Grant Funds to assist in funding benefits under the State-mandated In-Home Supportive Services (IHSS) program during the Federal FY beginning October 1, 1990 and ending September 30, 1991. The Block Grant will not be used to fund any of the other social services. By using Title XX funding only in the IHSS Program, the State and Counties are able to avoid unnecessary duplicate accounting and other administrative complexities. It is important to note that this funding alignment is a continuation from prior years and does not represent a change in any of the services or service levels. The other 20 services programs will continue to be funded by the State General Fund and other, non-Title XX Federal funding sources currently used for the social services system.

III. THE IN-HOME SUPPORTIVE SERVICES PROGRAM

The following section describes the IHSS Program, the types of activities to be supported and the categories and characteristics of the individuals to be served. This section is followed by a fiscal display which includes the intended use of the Title XX Block Grant and by a statement of assurances that the State intends to comply with specific Federal statutes and regulations.

A. Intent of the IHSS Program

As expressed in the California Welfare and Institutions Code (W&IC) Section 12300, the intent of the IHSS Program is to provide those supportive services to aged, blind, or disabled persons who are unable to perform the services themselves and who cannot remain safely in their homes or abodes of their own choosing unless such services are provided. Limits on the IHSS Program are those contained in the W&IC and imposed by the annual Budget Act.

W&IC Section 12300 describes supportive services to include, to the extent funds allow, "domestic services and services related to domestic services, heavy cleaning, nonmedical personal services, accompaniment by a provider when needed during necessary travel to health related appointments or to alternative resource sites and other essential transportation as determined by the director, yard hazard abatement, protective supervision, teaching and demonstration directed at reducing the need for other supportive services, and paramedical services which make it possible for the recipient to establish and maintain an independent living arrangement".

The IHSS Program addresses two of the five Federal goals under Title XX:

- Goal 3. Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests; or preserving, rehabilitating, or reuniting families.
- Goal 4. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care.

B. IHSS Delivery Modes

Service is provided to the recipient at the local level through three possible delivery modes: individual provider; contracted provider; and

County employed staff. Approximately 90.3 percent of the recipients are served by individual providers who are hired directly by a recipient. Approximately 9.2 percent of the recipients are served by profit or nonprofit home care agencies under contract with the Counties. Approximately .5 percent of IHSS recipients are served by County employed staff. County staff are also available to assist recipients in selecting and supervising their individual providers.

All funds identified for IHSS (including the Block Grant) are used solely for providing services through the three delivery modes described above. State and County administrative costs are not included in this item.

C. Recipient Characteristics

For State FY 1990/91, the IHSS Program is budgeted for 660.4 million, serving an estimated 160,000 recipients monthly. Based on the Recipient Summary Characteristics Report, it is estimated that 58.5 percent of all IHSS recipients are aged, 3.7 percent are blind, and 37.8 percent are disabled. Of the total IHSS caseload, 90.3 percent are eligible as recipients of Supplemental Security Income/State Supplemental Program (SSI/SSP) benefits (status eligible), 9.7 percent are eligible due to low income (income eligible) and 54.3 percent of the income eligible recipients must pay a share-of-cost for IHSS. Approximately 19.8 percent of all recipients fit the classification of severely impaired while 80.2 percent are considered non-severely impaired. Severely impaired recipients are defined as those people needing assistance of at least 20 hours per week to carry out any or all of the following functions of daily living, including routine bodily functions, such as bowel and bladder care and respiration assistance; dressing, oral hygiene and grooming; preparation and consumption of food and meal cleanup for individuals who require assistance with the preparation and consumption of food; moving in and out of bed, other assistance in transferring, turning in bed, and other repositioning; bathing, routine bed baths, and washing; ambulation and care and assistance with prostheses; rubbing of skin to promote circulation; paramedical services; any other function of daily living as determined by the Director (W&IC 12304e). The classification as severely impaired or non-severely impaired becomes important in the IHSS Program since severely impaired recipients are authorized a significantly higher benefit level than are non-severely impaired recipients. For FY 1990/91, the severely impaired monthly maximum is 283 hours, while the non-severely impaired monthly maximum is 195 hours.

D. IHSS Program Eligibility

In-Home Supportive Services are available to aged, blind, or disabled individuals who require such services and who:

- a. Currently receive SSI/SSP benefits; or
- b. Meet all SSI/SSP eligibility criteria; including income, but do not receive SSI/SSP benefits; or
- c. Meet all SSI/SSP criteria except for income in excess of SSI/SSP eligibility standards

For those individuals who have income in excess of SSI/SSP eligibility standards, this excess income, called net nonexempt income, shall be applied to the cost of IHSS.

E. IHSS Program Components or Contents

The following is a listing of the services that make up the IHSS Program. The authorized services are contained within Section 30-757 of the State Department of Social Services Manual of Policies and Procedures (MPP). All eligibility criteria listed in Chapter 30-700 of that manual must be met in order to authorize any of the IHSS Program components.

1. Domestic Services
2. Heavy Cleaning
3. Meal Preparation
4. Meal Cleanup for individuals who require assistance with the preparation and consumption of food.
5. Restaurant Meal Allowance
6. Routine Laundry
7. Reasonable Shopping
8. Nonmedical Personal Services
9. Transportation Assistance
10. Yard Hazard Abatement
11. Protective Supervision
12. Paramedical Services
13. Teaching and Demonstration

IV. FISCAL DISPLAY

TABLE I

Federal Title XX Allocation

<u>Federal FY 1989</u> (Actual)	<u>Federal FY 1990</u> (Estimated)	<u>Federal FY 1991 ^{1/}</u> (Estimated)
\$300.5 million	\$314.1 million	\$320.7 million

TABLE II

Comparison of Social Services' Program Expenditure ^{2/}

	<u>State FY 1988/89</u> (Actual)	<u>State FY 1989/90</u> (Estimated)	<u>State FY 1990/91</u> (Appropriation)
Non-Federal	\$ 796.3 million	\$867.7 million	\$859.3 million
Federal (including Title XX)	<u>\$ 460.0 million</u>	<u>\$ 541.3 million</u>	<u>\$ 610.7 million</u>
TOTAL	\$1256.3 million	\$1409.0 million	\$1470.0 million

TABLE III

State FY 1990/91 Proposed Funding ^{3/}

Counties	\$ 19.2 million
State	\$317.3 million
Federal	<u>\$323.9 million</u>
Total	<u>\$660.4 million</u>

^{1/} - Federal Register/Vol. 55, No. 26, February 7, 1990

^{2/} - Includes In-Home Supportive Services

^{3/} - Includes funds from the Low Income Energy Assistance program. All funds identified for "In-Home Supportive Services" (including the Block Grant) are used solely for the provision of services through the three delivery modes described in Paragraph III B, above.

ASSURANCES

The State Department of Social Services assures that this program has been, and will continue to be administered in compliance with 45 CFR Parts 80, 84, 86, 90 and 91 so that no person shall, on the grounds of race, color, national origin, age, sex or condition of physical or mental handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under this program.
