SUBJECT: REPAYMENT SHARING RATIOS FOR FY 1982/83

This letter will provide you with the repayment sharing ratios for Fiscal Year 1982/83 to be used for reporting child support collections on the Form CS 800. The sharing ratios are based on the actual AFDC expenditures for July through December 1981. This period is used because it is the most recent and complete data available.

The federal sharing ratio is determined by taking actual federal expenditures for each aid category and dividing them by total expenditures for the same category. Once the federal share is determined, the amount remaining (non-federal share) is allocated to the state and counties. The percentages used to determine the state and county repayment sharing ratios are based on the respective amount of state and county participation in the AFDC aid payment as provided for in Chapter 282, Statutes of 1979 (Assembly Bill 8).

The repayment sharing ratios for July 1, 1982 through June 30, 1983 are as follows:

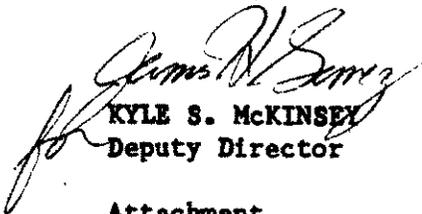

<u>Aid Category</u>	<u>Federal</u>	<u>State</u>	<u>County</u>
AFDC-FG	.4994	.4479	.0527
AFDC-U	.4357	.5048	.0595
AFDC-FC (federal)	.5000	.4750	.0250
AFDC-FC (non-federal)	0	.9500	.0500

The repayment sharing ratios for AFDC-FC federal and non-federal remain the same as Fiscal Year 1981/82.

Attached for your information is a list of Title IV-D funding levels, incentive amounts and repayment ratios from the inception of the program to the present.

If you have any questions concerning this letter, contact your county representative in the Child Support Operations Bureau at 916/322-6384.
