ARNOLD SCHWARZENEGGER
GOVERNOR

December 2, 2009

TO: ALL COUNTY WELFARE DIRECTORS
ALL COUNTY CHILD WELFARE DIRECTORS
ALL COUNTY / CWS / CMS SPOCS

SUBJECT: Child Welfare Services (CWS) External Systems

REFERENCE: Administration for Children and Families (ACF), Office of Information Systems Management (OISM) Action Transmittal (ACF-OISM-001)

In February 2009, the California Department of Social Services (CDSS) requested each county to complete a survey delineating the CWS external systems in operation and/or developed by counties for the purpose of augmenting the CWS/CMS functionality to better support CWS. The purpose of this informational letter is to provide counties with the results of the survey analysis performed by the CDSS. In addition, this letter outlines the decisions and scope in regard to conversion and decommissioning of the CWS external systems. The CDSS requests that each county review the enclosed CWS external systems spreadsheet and follow the instructions outlined in this letter for submission of questions and/or comments using the Uniform Response Form.

The CDSS reviewed the survey results and performed analysis for multiple purposes. This analysis provides CDSS with the ability to identify current CWS external systems and this work supports development of CWS/Web. The first analysis was conducted to ensure that the CWS/Web Request for Proposal requirements covered the CWS business needs. The second analysis was to determine if the CWS external systems may have data that should be converted as part of the CWS/Web Project. The third analysis was performed to determine if the CWS external system would be necessary after the implementation of CWS/Web. If it is determined the CWS external system will no longer be necessary after the CWS/Web implementation, the CWS external system is classified to be decommissioned.

A CWS external system is classified to be converted if the functionality and/or data, as described in the county survey, is not in CWS/CMS and if the functionality and/or data is planned to be available in CWS/Web (new single statewide State Automated Child Welfare Information System [SACWIS]).

A CWS external system is classified to be decommissioned if the functionality and data will be available in CWS/Web and the CWS external system is only used by CWS.

ALL COUNTY WELFARE DIRECTORS
ALL COUNTY CHILD WELFARE DIRECTORS
ALL COUNTY / CWS / CMS SPOCS

Page Two

The analysis to determine the conversion and decommissioning of the CWS external systems is part of the CDSS' ongoing efforts to implement one statewide SACWIS compliant system supporting California's CWS. ACF and CDSS expect that all Child Welfare-related functionality and data as defined within Title IV-E, will be within CWS/Web.

The ACF further confirms that the risks and consequences for implementing CWS/Web without all the Child Welfare-related functionality within Title IV-E or maintaining duplicative CWS external system this includes, but is not limited to, the potential for retroactive federal sanctions and/or disallowance of all federal SACWIS funding for the entire State of California.

It is the intent of CDSS to issue a future All County Letter to provide further clarification on the strategy for decommissioning and data conversion. The final timeframes for the data conversion and decommissioning strategy will be established in concurrence with CDSS, Office of Systems Integration, Child Welfare Directors Association and the implementation contractor at the earliest possible date in order to expedite system transition and planning activities.

The spreadsheet with the results of the CWS external systems survey and the analysis described above is enclosed in this letter for your review. A Uniform Response Form has been enclosed in this letter for your convenience. If you have any questions, suggested additions or changes regarding the external system spreadsheet content please complete the Uniform Response Form and e-mail the completed form to Bruce Conroy at Bruce.Conroy@dss.ca.gov. Please submit the Uniform Response Forms by January 20, 2010

Sincerely,

Original Document Signed By:

GREGORY E. ROSE
Deputy Director
Children and Family Services Division

Column Header	Definition/Clarification for Column Header
Add System	Check this box to list an external system not previously reported in the survey. (Use one form for each system to be added)
County	Lists the county/counties using the external system.
County Contact Person/Phone	Name/phone number of person completing this form.
System Name	The name of the external system.
Who inputs/updates	Indicate who inputs/updates the data in this system.
Purpose / Data	Describes (high level) function(s) of the external system.
Who Uses Data	Intended audience of data.
Communication Purpose	State the communication goal of the external system.
Convert	Whether the external system data will require conversion for CWS/Web based upon the high level description of the external system function(s).
Decommission	Whether the external system should be decommissioned after the implementation of CWS/Web based upon the high level description of the external system function(s).
CWS/CMS Data	Whether the external system uses current CWS/CMS data based upon the high level decryption of the external system function(s). For example, many counties receive a CWS/CMS data download that is used to populate fields in the external systems especially in regard to Client demographics.
CWS/CMS Functionality	Whether the external system is duplicating current CWS/CMS functionality based upon the high level decryption of the external system function(s).
Change/Update System	If this external system was previously reported, and there is a change to what was reported, or an update, check this box. (Use one form for each system to be changed/updated).
Spreadsheet Row	Indicate what row this system is shown in on the spreadsheet.
System Name	The name of the external system.
Convert	Same as above.
Decommission	Same as above.
CWS/CMS Data	Same as above.
CWS/CMS Functionality	Same as above.
Justification	Detailed explanation of what led to the need to change or update this external system.
Questions/Comments	List any questions or comments you have about your external systems.

Uniform Response Form

Section A: Add System

County: County Contact Person/Phone
Number:

System Name: Who inputs/updates?

Purpose/Data: Who uses data?

Communication Purpose:

Convert

Decommission

CWS/CMS Data: Yes
No

CWS/CMS Functionality: Yes
No

Section B: Change/Update System

Spreadsheet Row (as previously reported):

System Name:

Convert

Decommission

CWS/CMS Data: Yes
No

CWS/CMS Functionality: Yes
No

Justification for change or updates (please provide information explaining why the decision or field should be revised):

Eligibility	Madera	Central Index - Futuresoft	Centralized Clearing / Existing Cases		No	No	No	No
Eligibility	San Mateo, Yolo	SMART	Common Client Index		No	Yes	Yes	No

Eligibility	Santa Clara	Emergency Assistance Tool	Tracking of EA applications and status for applications that are outside the two status's allowed in the ACE statewide data system	IR	Yes	Yes	No	No
Eligibility	Orange	CalWIN-Mutual Clients	Report that matches CWS/CMS extract data with CalWin CIS databases and combines' to identify mutual clients.		No	Yes	Yes	No
Eligibility	Orange	Folder Tracking System (FTS) Foster Care	allows appropriate tracking of EA benefits so more federal funds can be drawn down		No	No	No	No
Eligibility	Orange	Foster Focus	Dept of Ed database re foster children over age of 10.		No	Yes	No	Yes

Eligibility	Orange	SSI Advocacy Web	all dependent children need to be evaluated for SSI/RSDI eligibility; the application process for these benefits need to be tracked		No	Yes	Yes	No
Eligibility	Orange	CalWorks SDM Inquiry	Application used by Cal Works staff to identify if client has CWS history or case.		No	Yes	Yes	No
Eligibility	Riverside	Access Placement - Foster Care Applications and Placements Database	Generates applications for foster care, and also tracks the placements received and entered into CWS/CMS.		No	Yes	No	Yes

Eligibility	Riverside	FYSIS (web-based application) C-IV	Contains historical database of the welfare inquiry system used prior to C-IV. Used to find case numbers in order to located prior case files, older siblings not listed in C-IV program that may have history to link with new family structure.		No	No	No	No
Eligibility	Riverside	Intranet Departmental Services MBS/Inquiry - web-based application	Contains historical database of the welfare inquiry system used prior to C-IV. Used to find case numbers in order to located prior case files, older siblings not listed in C-IV program that may have history to link with new family structure.		No	No	No	No

Eligibility	San Bernardino	Appeals Tracking System	Tracks issue codes for all hearing requests on Foster Care and AAP related issues	IR	Yes	Yes	No	No
Financial Management	Contra Costa	Assistance to Children in Emergency (ACE)	Register Emergency Assistance, Approvals, Time Periods and Denials. More for Funding Purposes	IR	Yes	Yes	No	No
Eligibility	Los Angeles	Welfare Case Management Information System (WCMIS)	Case number and client tracking system prior to Leader.		No	No	No	No
Eligibility	Los Angeles	Automated Provider Payment System (APPS)	This is the L.A. County equivalent to a SAWS system Benefit Calculation (BC) function driven by an existing CWS/CMS daily interface which must remain in place until APPS is replaced by LRS.		No	Yes	Yes	No

Eligibility	Los Angeles	Adoptions Assistance Payment System Web (AAP) replacing the AAP Standalone system in 4th QTR FY 08-09	Information about the adoptive placement, adoptive child demographics, adoptive parent, adoptive payment authorization and Aid Type (funding source data) are drawn from CWS/CMS.	IR	Yes	Yes	Yes	No
Case Management	Riverside	Ansell Casey Life Skills Assessment (ACLSA) - web-based program	To thoroughly assess foster youth in life skills areas.		No	Yes	No	No
Case Management	Marin	Access Database	Tracking placement information.		No	Yes	No	Yes

Case Management	San Francisco	ARCGIS	Mapping and spatial analysis software used for Planning and Policy division, especially to map where families live and where children and youth are placed		No	Yes	No	No
Case Management	Orange	Independent Living Program	captures details about educational and workshop info for foster and emancipated youth (this was used prior to ETO and will continue until CWS/Web as ETO doesn't include detailed education info, doesn't allow for tracking of repeated workshops, and doesn't contain narrative area)	IR	Yes	Yes	No	No

Case Management	Orange	Adoption Services Registry	post adoption inquiries	IR	Yes	Yes	No	No
Case Management	Orange	Adoption Matching Program	screening/preliminary matching of children to available adoptive homes including those from private agencies; matchers get proposed matches from system, further refine choices and send to workers for decision making	IR	Yes	Yes	No	No
Case Management	San Bernardino	Adoption Matching Database	This system provides a list of perspective adoptive home placements based on the matching of adoptive parents with foster children.	IR	Yes	Yes	No	No
Case Management	Orange	OverPop (over population) log	tracks length of stay in OCH, ESH, & TESH homes		No	Yes	Yes	No

Case Management	Orange	Orangewood Children's Information System (OCIS)	Tracks county shelter (Orangewood Children's home) and temporary shelter homes admissions, releases, temporary releases, total population, unit population and AWOL incidents.		No	Yes	Yes	No
Case Management	Orange	Boy's Town Behavior Tracking	Tracking of individual child's progress on behavioral intervention treatment program while child is at county shelter (Orangewood Children's Home)		No	Yes	Yes	No
Case Management	Orange	In Time for staff scheduling	Staff Scheduling application for county shelter (Orangewood Children's Home).		No	No	Yes	No

Case Management	Orange	ICPC-APHS database	track placement and adoption home study requests from & to other states		No	Yes	Yes	Yes
Case Management	Riverside	Access-Independent Living Program (ILP) Internal Database	Tracks and monitors ILP caseloads, ILP involvement with the community, ILP events, and other data pertinent to ILP administrative/management functions.		No	No	No	No
Case Management	Riverside	Warmline- (Stand alone application created by Riverside County Division of Information Technology for Children's Services)	Used to record data from phone calls to Riverside County's Kinship Warmline desk established as a resource phone line for kinship care providers to children in the county.		No	No	No	No

Case Management	Riverside	WebTox® (web-based application) Drug Testing Results	A web based system that tracks drug test results for all clients in the Random Urine Drug testing program through MedTox.		No	Yes	No	No
Case Management	Placer	Phamatech	Streamline drug testing for clients.		No	Yes	No	No
Case Management	Contra Costa	Drug Testing Database	Documentation of drug testing results		No	Yes	No	No
Case Management	Los Angeles	Drug test Tracking System	To create, schedule, and track drug test referrals , drug test results and interface with the		No	Yes	No	No
Case Management	Sacramento	Random Drug Testing Database	Track random drug testing, number ordered to test, dates and color codes for testing		No	Yes	No	No

Case Management	Sacramento	ILP	Maintain client demographic, chronological contact, and service information,		No	Yes	No	No
Case Management	Sacramento	Special Needs	Tracks applications and reassessments due.		No	Yes	No	No
Case Management	Sacramento	Bus Sticker Database	Track bus stickers issued to clients, dates approved and expiration date		No	Yes	No	No
Case Management	San Bernardino	ADS - Adoptions Database System	Tracks case information for cases that aren't in CWS/CMS such as birth parent adoptions, probate guardianship, out of town inquiries, and post adoption services.		No	No	No	No

Case Management	Contra Costa	Adoptions and Homefinding Database	To track families that express an interest in becoming a foster parent or adoptive parent.		No	No	No	No
Case Management	San Bernardino	Foster Focus	This database is a joint venture with the Sup. Of Schools developed by Sacramento County to track education enrollment and other education information for children in out of home placement.		No	Yes	No	No
Case Management	San Bernardino	ICPC Database	This system provides information on incoming and outgoing ICPC cases.	IR	Yes	Yes	No	No
Case Management	San Bernardino	ICPC Quarterly Report Database	This database tracks due dates for ICPC Quarterly reports		No	Yes	No	No

Case Management	San Bernardino	Inter County Transfer of Cases (ICT)	This system tracks incoming and outgoing ICT cases.		No	Yes	No	No
Case Management	San Bernardino	Health and Education Passport Log	Tracks Physical and Dental Exam due dates.		No	Yes	No	No
Case Management	San Bernardino	Individual Health Care Plan Database (IHCP)	Provides individual case plan information for Special Health Care Needs children.		No	Yes	No	No
Case Management	San Bernardino	Cooperative Agency home study Assignments	Tracks all home studies assigned to cooperative agencies, dates completed and # of outstanding studies. Need for alert system when a home study is overdue		No	Yes	No	No
Case Management	San Bernardino	Independent Living Program Aftercare System	Tracks ILP aftercare services for youths age 18-21.	IR	Yes	Yes	No	No
Case Management	San Bernardino	MARS-Medically At Risk System	Tracks Medically Fragile cases		No	Yes	No	No

Case Management	Riverside	FYSIS (web-based application) Foster Youth Student Information System	To obtain school records of foster youth - (Riverside County uses the Foster Youth Insight Student Information System web-based application to connect participants in the care of foster youth. Agencies and service providers in education, county social and probation services, courts, government and others have an on-going agreement to consolidate relevant information which in turn can be used to improve		No	Yes	No	No
-----------------	-----------	---	---	--	----	-----	----	----

CASE MANAGEMENT	San Diego	FY-SIS (Foster Youth - Student Information System)	FY-SIS is a secured, web-based system designed specifically to store health, education and placement information for over 5000 wards and dependents of San Diego County.		No	Yes	Yes	No
Case Management	CDSS Adoption District Offices	CDSS Adoptions Database	Information on children in Child Welfare and Adoption	IR	Yes	No	No	No
Case Management	Alameda	SSIRS (in development)	Information Reporting System: Enhance wraparound services delivered to clients	IR	Yes	Yes	Yes	No
Case Management	Contra Costa	Receiving Center Database	To track children who enter the center and the services provided to them		No	Yes	No	No

Case Management	Contra Costa	North Carolina Family Assessment Scale (NCFAS)	Information is used to develop a case plan		No	Yes	No	No
Case Management	Imperial	ACE (Accessing Careers through Education) Excel Program	Keep track of all aspects of Project ACE and students	IR	Yes	Yes	No	No
Case Management	Imperial	SPSS (STATISTICAL PLUS SOCIAL SERVICES)	ILP outcomes, TH-Plus Reports, Wraparound and PACT Data Information.	IR	Yes	Yes	No	No
Case Management	Los Angeles	Adoption Integrated System (AIS)	The application consists of various modules that were developed to augment the Adoptions CWS/CMS data and primarily allows data entry and tracking of applicant and child data not available in CWS/CMS.	IR	Yes	Yes	Yes	No

Case Management	Los Angeles	Adoption Promotion and Support Services (APSS)	This module is to track the paperwork and associated fees when DCFS assists a stepparent or independent person adopting a child that is not under the care of DCFS, and not a CWS/CMS child client.		No	No	No	No
Case Management	Los Angeles	ASFA Assessment Tracking System (KATS)	An automated tracking system that assists the Kinship team in assigning, tracking, managing, and reporting initial and annual Kinship assessments on caregivers. Sends e-mail notifications and is connected to a document managing system.		No	Yes	Yes	No

Case Management	Los Angeles	ASFA Cognos Reports	This module allows for searching, recording and tracking of case notes and barriers for the Adoptions child and applicant cases in the Adoptions Database.		No	Yes	Yes	No
Case Management	Los Angeles	AWOL Tracking System	Provides tracking of DCFS runaway youth.		No	Yes	Yes	No
Case Management	Los Angeles	DCFS Lite (CWS Lite & Probation Lite)	Provides a "lite" version of CWS/CMS Client Information to be shared with various departments.		No	Yes	Yes	Yes
