

•ADDENDUM TO THE UPDATED INFORMATIVE DIGEST

As a result of the Office of Administrative Law's August 7, 2007, disapproval of the Certificate of Compliance for these regulations, the regulations were refiled on an emergency basis as allowed by statute (SB 855, Statutes of 2004, Chapter 64, Section 11), effective August 7, 2007. The 120-days provided for in the Administrative Procedures Act allows the Department to correct any deficiencies cited by OAL for the disapproval.

To address those deficiencies the Department:

- Notified the public of a 2nd 15-Day Renotice that clearly identified the regulations originally noticed in the November 29, 2006, public hearing; the regulations revised, as a result of public testimony received and at the Department's discretion, in the 1st 15-Day Renotice; and all final revisions made to the regulations, including forms used by the Department in administering crisis nurseries.
- Includes a second Addendum to the Final Statement of Reasons to clearly address "authority," "clarity," "consistency" and "necessity" issues identified by OAL in their Letter of Disapproval. The original Addendum to the Final Statement of Reasons was submitted to OAL to address minor Certificate of Compliance deficiencies that were fixable at that time.

At the Department's discretion, additional non-substantive grammatical and editorial changes are made following the 2nd 15-day renotice period for clarity and consistency.
